Verify Adding Additional Terms.....	17
Verify that admin can view terms and conditions attachments.....	18
Verify that the admin can successfully proceed to the next step by filling all mandatory fields with valid data	19
Verify that the admin can upload up to 5 valid images for the auction.....	21
Verify that the admin can upload 1 valid video for the auction	21
Verify that the admin can navigate back to the previous step by clicking 'Previous'	21
Verify auction documents Upload.....	22
Verify Finalizing Auction Creation.....	23
Verify Bank dropdown	24
Verify that the admin can select one or more terms for stopping the auction.....	25
Verify that the admin can successfully stop an auction by selecting at least one term and confirming.....	25
Verify that the admin can cancel the Stop Auction process using 'Cancel' button or 'X'	26
Verify Auction Name field validation.....	27
Verify Auction End Date must be equal or after Start Date.....	28
Verify auction cover image selection.....	29
Verify all fields are enforced correctly (Mandatory / Optional / Auto).....	30
Verify auction cards display all required data fields.....	31
Verify Admin can stop an active auction from Actions menu	32

Verify Admin can create a new auction from Auction List screen.....	32
Verify Admin can filter auctions by Start/End Date range.....	33
Verify Admin can search auctions by Auction ID	33
Verify admin can access auction details.....	34
Verify auction details fields are correctly displayed.....	35
Verify navigation to Product Details screen	36
Verify product details fields are correctly displayed	37
Verify message displayed is correct.....	38
Verify File Extract functionality.....	39
Verify Admin can block a participant successfully	40
validate all columns are displayed with correct data under each column.....	41
Verify a successful download message is displayed after extracting the file.....	42
Verify block reasons and comment are saved correctly.....	42
Verify a blocked icon will appear for a blocked participant without any actions.....	42
Verify admin can successfully add an answer	43
Verify Admin can successfully Edit an answer	44
Verify admin can view the invoice uploaded by the winner.....	45
Verify admin can download the invoice uploaded by the winner	46
Verify admin can confirm winner's payment.....	46
Verify admin can reject winner's payment.....	47
Verify admin can select winner successfully.....	48
Verify admin can block Participant.....	49
Verify Download Participant List.....	50
Verify navigation to Configuration Settings.....	51
Verify successful update of "عدد فتح المزادات خلال الشهر" with valid input.....	52
Verify successful update of "إضافة عدة دقائق بعد إنتهاء وقت المزاد" with valid input.....	53
Verify Admin can answer only one question at a time.....	53
User Test Cases.....	54
Verify auction ads slider displays on landing page.....	54
Verify user must log in to enter the auction	55
Verify successful login allows user to access auction	56
Verify that all user roles (Supplier, Driver, Customer) can view the same auction ads.....	57
Verify expired auctions are not displayed.....	58

Verify viewing auction details for an ongoing auction.....	59
Verify viewing auction details for an expired auction.....	60
Verify viewing product details with all fields populated	61
Verify that users can view auctions actions.....	62
Verify that user can view auction general information	63
Verify Product Details tab accessibility for all auction statuses.....	64
Verify that auction data are displayed correctly.....	65
Verify valid filtering functionality.....	66
Verify search with valid input	67
Verify fields displayed if auction owner is a supplier	68
Verify fields displayed if auction owner is a customer	69
Verify fields displayed if auction owner is Amana tech.....	71
Verify section البنود is displayed with correct data.....	72
Verify section attachments are displayed with correct files for Terms and conditions.....	73
Verify Actions applicable on the attachments	74

Verify that Status, Last Updated Time, and Last Bid Amount fields are empty when auction is Active	76
Verify system behaviour when no participants exist in the auction	77
Verify user can subscribe to an "Active" auction only.....	78
Validate subscription button behavior for closed or expired auctions.....	80
Verify Subscription is blocked when user does not agree to Terms and Conditions	81
Verify successful auctions subscription	82
Verify disclaimer message displayed after successful subscription.....	84
Verify Participant Type is displayed correctly (Supplier, Driver, Customer).....	85
Verify waiting disclaimer while results are being prepared.....	86
Verify disclaimer message when delegate tries to subscribe while supplier already subscribed.....	87
Verify that blocking a supplier also blocks the related delegate account	88
Verify that blocked users see the correct error message with blocking reason and refund disclaimer.....	89
Verify that the Subscribe button is Hidden for blocked users	90
Verify that subscription fees are refunded when a user is blocked after subscribing.....	91

Verify that blocked participants appear in the participant list with status “Blocked”	92
Verify that “Please wait” message is replaced with result once ready	93
Verify congratulatory message is displayed for winning user.....	94
Verify that the user can open the payment page after clicking “Pay Now”	96
Verify that the system displays payment instruction confirmation disclaimer	97
Verify total amount is calculated correctly.....	99
Verify successful payment submission with valid attachment.....	100
Verify that after successful payment, the user is redirected back to auction details screen	101
Verify that after successful payment, the “Pay Now” button disappears	102
Verify system behavior when admin confirms payment	103
Verify system behavior when admin rejects payment	104
Verify that Pay Now button is not displayed for losers users	105
Verify that loser message is displayed with refund info	106
Verify that only Answered questions are displayed to users	107
Verify that username and user type are displayed correctly with the question	108
Verify successful payment within 48 hours updates status.....	109
Verify 'Pay Now' is hidden after 48 hours.....	110
Verify User status remains "Winner" till the admin selects another winner.....	111
Verify insurance refund is queued only after admin confirms new winner's payment... ..	112
Verify 'Create an entry permit' button is visible for permitted roles (driver/customer) ..	113
Verify clicking 'Create an entry permit' opens the entry permit screen.....	114
Verify details displayed for Driver Visit requests permits	115
Verify creating visit request for Non truck with minimal required data.....	117
Verify creating visit request for Truck with all required data	118
Verify disclaimer is displayed in the Driver Permits	120
Verify user can only see their own Approved Requests (permissions).....	121
Verify Driver sees only Approved + Paid/Free requests in 'My permits' (includes Auction Service)	122
Verify filtering by Visit Date supports current date	123
Verify Visit Reason multi-select filter (Enter Auction & Enter Scrap Yard) on permits list	124
Verify Customer sees only 'Auction Service => New' Approved Requests in My permits	125

Verify empty state is shown when user has no approved requests	126
Verify system displays created data correctly on details view for customer permits	127
Verify system displays created data correctly on details view for driver permits.....	128
Verify disclaimer 'يمكنك الدخول بهذا التصريح المجمع' is shown for customer	129
Verify Visit Reason displays 'Enter Auction/دخول مزاد' for customer permits.....	130
Verify 'تصفية البيانات' (Filter) and 'بحث' (Search) buttons are present and functional	131
Verify Visit Start Date (Auction start date) is displayed correctly	132
Verify supplier/delegate sees guidance message to add new vehicle in Vehicle section	133

Admin Test Cases

Verify Auction Owner Type Selection

Test Case ID	Admin_Auction_01
Date	30 November
Author	Mohamed Omara
Status	

ID	Step Description	Expected Results	Step Status	Notes
